

Innovations in Bicycle Facility Design

Thursday, May 18, 2006

Increasingly, communities are recognizing the need to improve access and safety for bicycle drivers. At this meeting, our first guest speaker will provide comprehensive information on the bikeway design standards and on-going research. Don't miss this unique opportunity to hear about the latest innovations being considered at the federal level (NCUTCD Bicycle Technical Committee) and in California (Caltrans, CTCDC and the California Bicycle Advisory Committee).

The efforts of San Francisco MTA/DPT's Bicycle Program have helped the city earn recognition as one of the best cities for bicycling in North America (*Bicycling* magazine). Our second guest speaker will introduce City's Bicycle Program and implementation of City's recent bicycle projects, with highlights of innovative solutions to difficult or unique challenges.

SPEAKERS

John Ciccarelli, Senior Planner / Bicycling & Walking, Korve Engineering.

Mike Sallaberry, Associate Transportation Engineer, SF MTA / DPT, Bicycle Program

SCHEDULE

11:30 a.m. Check-in and Social
12:00 p.m. Introductions and Presentations
1:00 p.m. Meeting Adjourns

MEETING LOCATION

Caltrans District 4 Headquarters
Parkview Room, 15th Floor
111 Grand Avenue (at the corner of Webster St. and Grand Ave. in downtown Oakland)

ACCESS

Public Transit: Near 19th Street Oakland BART. See also www.511.org for more options.
