

**Transportation Planner/Traffic Engineer
Monterey Bay Office**

RBF Consulting's Monterey Bay office is seeking a Transportation Planner/Traffic Engineer to perform traffic impact studies, parking studies, transportation planning, and traffic operations. Responsibilities will include preparing proposals for traffic impact studies, client communication and meeting attendance, mentoring junior level staff, analyzing traffic data using highway capacity methodologies, and creating graphics for presentations and reports. The candidate will also be responsible for coordinating and analyzing traffic counts, conducting field reviews, analyzing alternative land use scenarios and associated traffic impacts, and preparing documentation.

Requirements for the position include a Bachelor's degree in Civil Engineering, Transportation Planning or Urban and Regional Planning, as well as 5+ years of transportation planning/traffic engineering experience, including roadway/highway design and/or PSR/PR. Qualified candidates should possess a proficiency in MS Office, familiarity with AutoCAD, and strong knowledge of Synchro, Traffix, and HCS. A Master's degree in a related field is a plus, but not required.

Founded in 1944, RBF Consulting provides consulting services for planning, design and construction of the built environment and is currently ranked #70 by Engineering News Record (ENR) Magazine. RBF is one of the most prominent consulting firms in the Western United States. We provide our services to both public and private sector clients, both nationally and internationally, in a timely, cost effective and innovative manner while providing quality and responsive service by a highly qualified and experienced staff of nearly 900 professionals in 14 locations.
